

DON'T FEAR THE BAGGAGE HANDLERS! BRING YOUR EXPENSIVE COMPUTER & PHOTOGRAPHY GEAR WITH YOU!

Photographers travel where others fear to tread with this pioneering Photo StudioCruzer Pelican case that provides superior mobility of cameras – and Mac Book Pro!

Now that your profession has gone digital, you travel with more than just your best camera and lenses. Your whole studio (stored in a laptop computer) goes along for the ride. If – *and only if* – you have the best protection in the business.

The new trailblazing *StudioCruzer* is the toughest airline-legal carry-on case available today. Its 20.2- x 11.4- x 7.5- inch interior gives photographers endless flexibility for storing and

protecting equipment with closed cell foam adjustable sizes. And the impenetrable shock-proof lid is the perfect cradle for your Apple MacBook Pro 13.3-, 15-inch or new MacBook Pro Air.

ADVENTURE: AIR, LAND OR SEA

Thanks to *StudioCruzer's* 17-inch retractable extension handle, you're ready to roll into any terrain. And since the case is equipped with side and front handles, it is easy to maneuver wherever you are.

It's tough, too: The metal reinforced padlock protectors add strength and extra security against cutting and theft. And not to grandstand, but with buoyancy up to 64.2 lbs this case is not only waterproof but ready and willing to be strapped to a kayak for river travel.

If you're a videographer the *StudioCruzer* can be custom-built to your specs. Custom foam applications can accommodate many of the industry's state-of-the-art video cams.

The versatile and fearless *StudioCruzer* also includes these standard Pelican case features:

- Water and dustproof neoprene o-ring seal
- Automatic purge valve with Gore-Tex® membrane
- Easy to open double-throw latches
- Indestructible but lightweight construction: Only 15 lbs when empty

WE'VE GOT YOUR BACK!

When you put yourself on the line for a great photograph, don't forget *StudioCruzer's* Lifetime Guarantee. Go for it!
